

International Space Science Institute (ISSI)  
meeting "**High-Energy Particles Sources and Powerful VHF Radiations in Electrically Active Atmosphere: Theoretical Models and Space Borne Instruments**" is arranged on **Jan 29 – Feb. 2, 2018, Bern, Swiss.**

<http://www.issibern.ch/teams/vhfradiations/index.php/schedule-meetings/>

**Ashot Chilingarian.** Validation of TGE/TGF models with Aragats observations

Meeting of international project Global Coordination of Atmospheric Electricity Measurements (**GloCAEM**), Bath, UK, from 21st to 23rd March 2018.

<https://researchportal.bath.ac.uk/en/projects/global-atmospheric-electricity-monitoring-glocaem-network>

A.Chilingarian, Intracloud electric fields emerging during thunderstorms and at fair weather

Atmospheric Monitoring for High Energy Astroparticle Detectors - AtmoHEAD 2018 conference Capri (Italy) from September 24th to 26th, 2018.

<https://agenda.infn.it/conferenceDisplay.py?confId=14467>

A.Chilingarian, J. Knapp, M.Zazyan, Monitoring of the atmospheric electric field and cosmic ray flux for the interpretation of results in high-energy astroparticle physics experiments (invited)

European Radiation Dosimetry group (**EURADOS )WG11 MEETING**  
**Dolní Břežany, Czech Republic, October 23-24, 2017 ,**

<http://www.eurados.org/>

A. Chilingarian: Thunderstorm Ground Enhancements and Atmospheric Electric Fields.  
(invited)

AGU....
